Re: Gulfco Marine Maintenance Superfund Site, Freeport, Texas
Unilateral Administrative Order, CERCLA Docket No. 06-05-05
Advance Notice of Trash/Debris Clean-up Activities and Site Mowing

Dear Mr. Pastor:

The U.S. Environmental Protection Agency (EPA) has performed a review of the "Advance Notice of Trash/Debris Clean-up Activities and Site Mowing" dated February 19, 2007. With this letter, the EPA approves the referenced activities with the following modifications:

1. All materials collected as part of the trash and debris clean-up shall be inspected to determine whether there is any visible chemical staining or mud/soil adhering to the material. Any such material shall not be included with the non-hazardous material collected, and shall be staged for later disposal at an appropriate off-site facility.
2. Respondents shall provide oversight of the site clean-up activities and shall note the location where any material with visible staining was found.

The Respondents are authorized to proceed with these activities for the Gulfco site. If you have any questions, please contact me at (214) 665-8318, or send an e-mail message to miller.garyg@epa.gov.

Sincerely yours,

Gary Miller, P.E.
Remediation Project Manager
